EurOmax Resources Ltd.

Notes to the condensed consolidated interim financial statements

June 30, 2012

(Unaudited and expressed in Canadian dollars, except number of shares and per share amounts)

1. Nature of operations

EurOmax Resources Ltd. ("EurOmax") is a gold exploration and development company with three projects in Southeastern Europe and the objective of becoming a world-class player in the European gold sector.

These condensed consolidated interim financial statements include the accounts of EurOmax and of its wholly-owned subsidiaries (collectively, the "Company"): EurOmax Resources UK (Services) Limited, EurOmax Resources (Macedonia) Ltd., Omax International Limited, Martern EOOD ("Martern"), EOX Services Ltd., EurOmax Macedonia doel Skopje, PDVdooel Skopje and South Danube Metals Beograd d.o.o.

The Company operates in one segment being the exploration and development of mineral right interests.

The Company is in the process of exploring its mineral right interests in Macedonia, Bulgaria and Serbia and at the date of these condensed consolidated interim financial statements, has not yet determined whether any of its mineral properties contain economically recoverable mineral reserves. Accordingly, the carrying amount of mineral right interests represents cumulative expenditures incurred to date and does not necessarily reflect present or future values. The recovery of these costs is dependent upon the discovery of economically recoverable mineral reserves and the ability of EurOmax to obtain the necessary financing to complete their exploration and development and to resolve any environmental, regulatory, or other constraints.

Uncertainty also exists with respect to the recoverability of the carrying value of certain mineral properties. The ability of the Company to realize on its investment in resource properties is contingent upon resolution of the uncertainties and confirmation of the Company's title to the mineral properties.

These condensed consolidated interim financial statements have been prepared on a going concern basis. The Company does not generate cash flows from operations and accordingly, EurOmax will need to raise additional funds through future issuance of securities. Although EurOmax has been successful in raising funds in the past, there can be no assurance EurOmax will be able to raise sufficient funds in the future, in which case the Company may be unable to meet its obligations as they come due in the normal course of business. The Company has not determined whether any of its properties contain mineral reserves that are economically recoverable. It is not possible to predict whether financing efforts will be successful or if the Company will attain a profitable level of operations. Since inception, the Company has incurred cumulative losses of \$33,387,282 as of June 30, 2012 (December 31, 2011: \$31,044,769) and expects to incur further losses in the development of its business. These factors may cast significant doubt regarding EurOmax's ability to continue as a going concern. Should EurOmax be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts on the statements of financial position.

These condensed consolidated interim financial statements are presented in Canadian dollars and all values are rounded to the nearest dollar except where otherwise indicated.

EurOmax's common shares are listed on the TSX Venture Exchange ("TSX-V") and on the OTCQX stock exchange in the United States, under the trading symbol "EOX". EurOmax's share options and warrants are not listed.

The head office, principal address and registered and records office of the Company are located at 1950-400 Burrard Street, Vancouver, B.C. V6C 3A6.

These condensed consolidated interim financial statements were authorized for issue by the Company's Board of Directors on August 15, 2012.

EurOmax Resources Ltd.

Notes to the condensed consolidated interim financial statements

2. Basis of preparation and statement of compliance

The Company is following the same accounting policies and methods of computation in these condensed consolidated interim financial statements as were utilized in the preparation of the audited consolidated financial statements for the year ended December 31, 2011.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2011, which have been prepared in accordance with IFRS as issued by the IASB.

3. Accounting policies

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual profit or loss.

4. Estimates

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2011.

5. Unproven mineral right interests

The Company is currently engaged in exploring on one property in Macedonia, one property in Bulgaria and one property in Serbia.

(a) MACEDONIA

On July 11, 2007, the Company acquired an option to earn a 100% interest in nine properties in Macedonia. Under the terms of the option agreement, the Company paid US\$500,000 and issued 100,000 common shares in order to acquire this option. In order to exercise the option, the Company completed a US\$1.5 million exploration program over 3 years. The vendor retained a back-in right on the property and in February 2012 elected not to exercise this right. As a result, EurOmax, through a wholly-owned subsidiary, now owns a 100% interest in the Macedonian properties.

These properties are held pursuant to an Exploration Permit ("Permit") granted by the Ministry of Economy. These Permits have an initial term of four years with a right to extend the term under certain circumstances. In the event of an economic discovery on a Permit, the Company has the right to apply for an Exploitation Concession Agreement (the "Exploitation Concession") for an initial term of 30 years.

(Unaudited and expressed in Canadian dollars, except number of shares and per share amounts)

5. Unproven mineral right interests (continued)

(a) *MACEDONIA (continued)*

Ilovitza

The Ilovitza property consists of 2 permits, Ilovitza 11 (formerly known as Ilovitza 4) and Ilovitza 6. The Ilovitza 11 permit was re-issued on February 21, 2011. The Ilovitza 6 permit was extended until May 31, 2011. In November 2011, the Company filed all the documents required to apply for an Exploitation Concession for Ilovitza 6, which was granted subsequent to June 30, 2012 (Note 10).

(b) *BULGARIA*

The Company currently owns a 100% interest in Trun, a Bulgarian property held pursuant to an exploration licence ("Licence") issued by the government of Bulgaria. The Licence has an initial term of three years with a right to extend the term up to eight years under certain circumstances. In the event of an economic discovery on a Licence, the Company has the right to obtain a mineral concession ("Concession"). The term for a Concession is for the necessary period to extract the mineralization discovered but generally runs from 35 to 50 years.

In the quarter ended June 30, 2012, the Company sold a wholly-owned subsidiary that held the mineral rights to the Breznik and Rakitovo properties.

Trun

The Trun Licence was granted pursuant to an agreement entered into between the Ministry of Environment and Water of Bulgaria (the "Ministry") and the Company, dated July 7, 2004. This Licence covers an area of 67 square kilometres. In order to maintain this Licence in good standing, the Company completed work programs approved by the Ministry. During the quarter ended June 30, 2012, the Company submitted a commercial discovery certificate application for Trun, following the same process as for the Breznik commercial discovery certificate application submitted in 2011.

Breznik and Rakitovo

On April 19, 2012, the Company sold its wholly-owned subsidiary Thrace Resources EOOD ("Thrace") to a private company. The Breznik and Rakitovo properties were held in Thrace. Consideration for the sale of Thrace will total \$3.5 million, if certain milestones are achieved, and a 1.5% Net Smelter Return on the first 330,000 ounces of gold and 970,000 ounces of silver produced at the Breznik property. An initial payment of \$1,450,972 was received by the Company in April 2012. In connection with the sale of Thrace, the Company recorded a loss on sale of unproven mineral right interests of \$5,428.

5. Unproven mineral right interests (continued)

(c) SERBIA

On July 11, 2007, the Company acquired an option to earn a 100% interest in five properties in Serbia. Under the terms of the option agreement, the Company paid US\$100,000 and issued 2.4 million common shares in order to acquire this option. In order to exercise the option, the Company completed a US\$1.5 million exploration program over 3 years. The option agreement was amended on June 6, 2008 to add the Karavansalija ("KMC") property by payment of US\$50,000 and the issuance of 2.5 million common shares. The KMC project was subject to certain back-in rights. In July 2011, the option agreement was amended and the optioner agreed to forego its option to acquire a 70% interest in the KMC property in exchange for a 2% net smelter return royalty on gold, and a 1.5% net smelter return royalty on all base and precious metals other than gold, extracted from the KMC property.

The Company, through a wholly owned subsidiary, owns a 100% interest in the KMC property, subject to these royalty obligations.

Exploration Permits are issued by the Serbian Ministry of Energy and Mines. An Exploration Permit is valid until the end of the calendar year in which it was issued and can be extended until the end of the following calendar year by filing an annual report on the previous year's work program and a proposed work program for the current year. In case of a discovery under the terms of an Exploration Permit, the transfer of the ownership rights to an Exploitation License are similar to mineral concessions in Bulgaria and Macedonia.

The KMC Exploration Permit was issued on July 7, 2004 and is extended on an annual basis. This Exploration Permit covers 42 square kilometres.

EurOmax has an incentive share option plan (the "Plan") under which directors, officers, consultants and employees of the Company are eligible to receive stock options. The maximum number of shares reserved for issuance upon exercise of all options granted under the Plan is equal to 10% of the then issued and outstanding common shares. The Company's Board of Directors determines the terms and provisions of the options at the time of grant. Options under the Plan generally have a term of five years and, in most recent grants, vest 25% at the date of grant and 25% on the first, second and third anniversaries of the date of grant. The exercise price of each option equals the market value of EurOmax's common shares on the day preceding the date of grant.

Share options were awarded during 2012 and 2011 as follows:

| | Six months ended June 30, 2012 | | Year ended December 31, 2011 | |
|------------------------------|--------------------------------------|--|------------------------------------|--|
| | Number of options | Weighted average exercise price \$ | Number of options | Weighted average exercise price \$ |
| Balance, beginning of period | 8,755,420 | 0.21 | 10,683,228 | 0.28 |
| Options granted | 9,380,000 | 0.20 | 2,175,000 | 0.34 |
| Options exercised | (1,575,000) | 0.13 | (1,290,000) | 0.24 |
| Options expired | (300,000) | 0.35 | (1,272,808) | 0.54 |

The fair value of the share options awarded to employees and directors was estimated using the Black-Scholes option pricing model with the following assumptions for the periods presented below:

| | Six months ended June 30, 2012 | Year ended December 31, 2011 |
|-----------------------------|--------------------------------------|------------------------------------|
| Risk free interest rate | 1.18% | 2.22% |
| Expected life | 3.03 years | 3.54 years |
| Expected volatility | 109.35% | 179.06% |
| Expected dividend per share | \$Nil | \$Nil |

The weighted average fair value of share options awarded during the six months ended June 30, 2012, estimated using the Black-Scholes option pricing model was \$0.14 per option.

The weighted average fair value of share options awarded during the year ended December 31, 2011, estimated using the Black-Scholes option pricing model was \$0.29 per option.

The Black-Scholes option pricing model was developed for use in estimating the fair value of share options that have no vesting provisions and are fully transferable. Also, option-pricing models require the use of estimates and assumptions including the expected volatility. EurOmax uses expected volatility rates which are based upon their historical volatility. Changes in the underlying assumptions can materially affect the fair value estimates.

The total share-based payment expense calculated for the six months ended June 30, 2012 was \$418,411 (2011 - \$683,952).

The intrinsic value of outstanding and exercisable share options at June 30, 2012 was \$314,279 (December 31, 2011: \$418,704).
