See accompanying notes to the condensed consolidated interim financial statements.

1. Nature of operations

Euromax Resources Ltd. ("Euromax" or "Company") was incorporated under the Business Corporation Act (British Columbia) and established as a legal entity on May 1, 1990. The registered address of the Company is located at 10th Floor, 595 Howe Street, Vancouver, British Columbia, Canada V6C 2T5.

These condensed consolidated interim financial statements include the accounts of Euromax and of its wholly-owned subsidiaries (collectively, the "Group"). The Group operates with the objective of becoming the leading gold and base metal mining company in Europe. The Group operates in one sector in the mining industry, i.e. the exploration and development of mineral right interests. The Group previously provided exploration services to third parties, however this Exploration Services reportable segment was disposed of on June 27, 2017 (see Note 7) and has been presented as a discontinued operation in these condensed consolidated interim financial statements.

Euromax's common shares are listed on the Toronto Stock Exchange ("TSX") under the trading symbol "EOX", as well as on the OTCQB under the trading symbol "EOXFF". Euromax's share options and warrants are not listed.

These condensed consolidated interim financial statements were authorised for issue by the Company's board of directors on November 8, 2017.

2. Basis of preparation and statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34 Interim Financial Reporting. These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2016, which were prepared in accordance with IFRS as issued by the IASB.

The Group is following the same accounting policies and methods of computation in these condensed consolidated interim financial statements as it did in the audited consolidated financial statements for the year ended December 31, 2016.

3. Going concern

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

At September 30, 2017, the Group had net assets of \$6.2 million (December 31, 2016: net liabilities of \$4.8 million) and a net working capital deficiency of \$31.2 million (December 31, 2016: \$24.5 million), including cash of \$4.0 million (December 31, 2016: \$1.1 million). The Group's \$31.2 million working capital deficiency at September 30, 2017 largely results from:

- Gold purchase advance payments of \$14.0 million (December 31, 2016: \$15.2 million) received from Royal Gold, AG ("Royal Gold") (see Note 11);
- Convertible loans of \$13.1 million (at December 31, 2016 both were classified as non-current), closed with European Bank for Reconstruction and Development ("EBRD") ("EBRD convertible loan") and with CC Ilovitza ("CCI" a member of the CCC Group) ("CCI convertible loan"), both mature on April 30, 2018 (see Note 10); and
- Share-based payment liabilities of \$4.7 million (December 31, 2016: \$8.7 million) owing to the Group's directors and officers in lieu of cash compensation (see Note 12(c)).

These three items are classified as current liabilities as contractually repayment may be required within the next twelve months. As at the date of these condensed consolidated interim financial statements no termination or repayment notice has been received from Royal Gold. Additionally, no cash payments are anticipated in connection with share based payment liabilities to any director or executive. Both convertible loans are convertible into the Company's common shares at the election of EBRD and CCI on or before April 30, 2018.

3. Going concern (continued)

During the nine months ended September 30, 2017, the Group secured total gross proceeds of $5.9 million provided by three non-brokered private placements (see Note 9), of which $1.4 million received on March 14, 2017 by issuing of 3,325,582 common shares at a price of $0.43 ("March 2017 Private Placement"), $0.5 million on August 23, 2017 by issuing of 1,666,666 common shares at price of $0.30 ("August 2017 Private Placement") and $4.0 million on September 25, 2017 by issuing of 13,333,333 common shares at price of $0.30 ("September 2017 Private Placement").

Subsequent to period ended September 30, 2017, the Group has continued to advance discussions and due diligence activities with prospective investors to address the Group's working capital deficiency.

The Company's board of directors have reviewed the Group's forecasts for the period to December 31, 2018, including all projected payments of current creditors, costs for obtaining all necessary permits for the Ilovica-Shtuka Project (including urbanisation and land acquisition activities) and engineering work that will establish a guaranteed maximum price for the Ilovica-Shtuka Project's construction.

Based on these forecasts and notwithstanding the willingness of certain stakeholders to provide further financing subject to conditions, the directors have identified that further funding will be required. Additionally the Group will be required to raise further debt and funding to ultimately construct and bring the Ilovica-Shtuka Project into commercial production.

Whilst the directors remain optimistic that the Group can raise additional debt or equity funding, this is not wholly within the Group's control. As such, this represents a material uncertainty which casts a significant doubt about the Group's continued ability to operate as a going concern and it may be unable to realise its assets and discharge its liabilities in the normal course of business.

4. Critical accounting judgements and key sources of estimation uncertainty

The preparation of these condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements for the year ended December 31, 2016.

(Expressed in Canadian dollars, except number of common shares and per share amounts)

5. Earnings/(loss) per share (continued)

The calculation of diluted weighted average number of common shares is set out below:

		Three months ended September 30,		Nine months ended September 30,	
		2017	2016	**2017**	2016
	Note				
Basic weighted average number of common shares		**121,747,641**	116,842,737	**119,928,230**	116,842,737
Effect of share options and warrants		**3,611,670**	-	**10,534,200**	-
Effect of conversion of convertible loans	**10**	**36,674,290**	-	**33,941,225**	-
Diluted weighted average number of common shares		**162,033,601**	116,842,737	**164,403,655**	116,842,737

For the quarter and nine months ended September 30, 2016, because there would be further reduction in loss per share resulting from the assumption that share options, warrants and convertible loan are exercised or converted, all these instruments are considered anti-dilutive and are ignored in the computation of loss per share. As there were no other instruments that may have a potential dilutive impact, the basic and diluted loss per share was is the same for the quarter and nine months ended September 30, 2016.

6. Operating segments

The Group's main business is the exploration and development of mineral right interests, while its secondary business, i.e. provision of exploration services to third party resource companies, was disposed of on June 27, 2017 (See Note 7). The Group's board of directors (the Group's Chief Operating Decision Maker) has arranged the Group's operating segments by both type of business and by geographic region. No operating segments have been aggregated in arriving at the reportable segments of the Group.

The Group's reportable segments are as follows:

Reportable segments	Operations	Geographic location
Macedonia	exploration and development of mineral right interests	Macedonia
Serbia	exploration and development of mineral right interests	Serbia
Exploration Services	exploration and evaluation services to third parties	Bulgaria
Corporate	corporate operations	Canada and UK

On June 27, 2017 the Group disposed of its Exploration Services reportable segment ("Euromax Exploration Services EOOD" or "EES") (see Note 7), while on September 29, 2016 disposed of its Serbian reportable segment ("South Danube Metals d.o.o. Beograd" or "SDM") (See Note 8).

6. Operating segments (continued)

7. Discontinued operation

(a) Results of discontinued operations

On June 27, 2017 the Group disposed of its Bulgarian exploration service company, EES, for total consideration of $0.185 million (€0.124 million) of which $0.040 million (€0.027 million) involved offsetting of existing payables that the Group owed EES, whilst the remaining $0.143 million (€0.097 million) were collected on October 13, 2017 and therefore recognised as deferred consideration at September 30, 2017.

A loss on disposal of $0.436 million has been recognised for the nine months ended September 30, 2017.

The Exploration Services reportable segment had not been previously classified as held-for-sale or as a discontinued operation, and accordingly the comparative consolidated statement of profit or loss and other comprehensive income or loss has been restated to reflect the discontinued operation separately from Group's continuing operations.

Subsequent to the disposal, the Group has not purchased exploration services from the discontinued operation.

8. Unproven mineral right interests

Macedonia

On July 11, 2007 the Group acquired an option to earn a 100% interest in the Ilovica-Shtuka Project. After completing an agreed exploration programme and the vendor not exercising its back-in right in January 2012, the Group acquired a 100% interest in the Ilovica-Shtuka Project.

8. Unproven mineral right interests (continued)

Macedonia (continued)

The Ilovica-Shtuka Project consists of two adjacent properties, Ilovica 6 and Ilovica 11. The Group was granted a Concession for exploitation of mineral resources ("Exploitation Concession") for Ilovica 6 under the rules and regulations of the Minerals Law in Macedonia. The Ilovica 6 Exploitation Concession has an initial term of 30 years and is subject to a state royalty of 2% of the market value of metals contained in concentrate. The Ministry of Environment and Physical Planning in Macedonia ("MoEPP") has formally approved the Environmental Impact Assessment Study ("EIA") for Ilovica 6 under the Environmental Law in Macedonia.

On January 6, 2016 the Group announced the Feasibility Study ("FS") for the Ilovica-Shtuka Project, prepared in compliance with National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101").

The Exploitation Concession on Ilovica 11 was granted on January 13, 2016 under the rules and regulations of the Minerals Law in Macedonia. This Exploitation Concession on Ilovica 11 has the same conditions as those of Ilovica 6, i.e. an initial term of 30 years and a state royalty of 2% of the market value of metals contained in concentrate.

On July 22, 2016, following the submission of a Main Mining Project, an application for the Exploitation Permit for the Ilovica-Shtuka Project was submitted for approval.

During the nine months ended September 30, 2017, a Strategic Environmental Impact Assessment was approved by the MoEPP (required for urbanisation process of the mine footprint); the Ministry of Economy approved the merger of the Group's two exploitation concessions subject to Macedonian Government ratification; and a commission within the MoEPP issued a Compliance Report for the EIA on Ilovica 11, and recommended the formal approval to be granted by the MoEPP. Additionally, the ESIA, produced under international standards, was completed, which will facilitate the project financing as well as meets the requirements of various project stakeholders.

Serbia

On September 29, 2016, the third party optionee exercised its one year option under the option agreement to acquire the Group's remaining 96% interest in SDM that owns 100% of the Karavansalija Mineralised Centre ("KMC") exploration permit, for $0.650 million (US$0.500 million).

On disposal, the Group had recognised a loss of $0.569 million for the three and nine months ended September 30, 2016, which mainly represents the recycling of the related currency translation reserve losses to the income statement in accordance with accounting standards.

A summary of changes to the Group's unproven mineral right interests in the nine months ended September 30, 2017 and 2016 is set out below.

(b) Recognition and measurement of convertible loans

EBRD convertible loan

EBRD convertible loan	2017	2016
	$000s	$000s
Carrying amount at January 1	**11,187**	-
Proceeds received from convertible loan	**-**	6,565

Fair value adjustment	**(4,060)**	2,303
Foreign exchange movements	**(619)**	(14)
Carrying amount at Septmber 30	**7,608**	9,238

The EBRD convertible loan is classified as a financial liability at fair value through profit or loss, whereby all attributable transaction costs of $0.312 million (at September 30, 2016 $0.146 million accrued), together with any accrued interest, foreign exchange movements and fair value adjustments are recognised in profit or loss.

The fair value of the EBRD convertible loan is calculated via an internally prepared model that separately values the loan amount on a discounted cash flow basis and the conversion option using a Black-Scholes option pricing model. The market observable information assumptions used, of which the most significant is the Company's common share price, have been applied consistently to management's most likely future financing plans.

In periods prior the six months ended September 30, 2017, a probability weighting has been applied to each scenario, developed based on future financing plans, by using management's best estimates of the likelihood of each scenario occurring. This probability weighting was categorised as a level 3 non-market observable assumption under IFRS 13 and hence results in the EBRD convertible loan valuation being a level 3 valuation.

The fair value of the EBRD convertible loan at September 30, 2017 was assessed at $7.608 million (US$6.109 million) (September 30, 2016: $9.238 million or US$7.055 million), representing a reduction in the liability recognised in the balance sheet compared to December 31, 2016, which has resulted in fair value gain of $0.829 million and $4.060 million recognised for the three and nine months ended September 30, 2017 (fair value loss of $2.303 million for both three and nine months ended September 30, 2016), respectively.

CCI convertible loan

Proceeds received from convertible debenture notes	**-**	5,200

Amortisation of transaction costs	**192**	107
Adjustments recorded during the period	**902**	446
Carrying amount at Septmber 30	**5,453**	4,271

The CCI convertible loan is a compound financial instrument, whereby a liability component and an equity component was determined at initial recognition. The liability component of $4.337 million has been measured by fair valuing the convertible loan using a relevant market interest rate that would apply to an equivalent loan that does not contain an equity conversion option. The remaining amount of $0.863 million was recognised as the equity element.

Transaction costs of $0.613 million incurred for closing of the CCI convertible loan were allocated on a proportional basis to the liability component ($0.512 million) and equity element ($0.101 million). Transaction costs allocated to the liability component will be fully amortised until April 30, 2018.

Subsequent to initial recognition, the liability component is measured at amortised cost by using the effective interest rate method.

11. Gold purchase advance payments

On October 20, 2014 the Group entered into a Gold Purchase and Sale Agreement ("GPSA") with Royal Gold pursuant to which the Group via its wholly-owned subsidiaries agreed to sell an equivalent of 25% of future gold production from the Ilovica-Shtuka Project to Royal Gold to a maximum of 525,000 ounces and then 12.5% gold produced thereafter. In consideration, Royal Gold will pay US$175 million to the Group as an advance payment on the purchase price of Ilovica-Shtuka Project's future gold production.

Under the GPSA, Royal Gold will purchase the gold delivered for a cash purchase price of 25% of the London PM gold fixing price as quoted by the London Bullion Market Association on the date of delivery for each ounce delivered and shall apply the balance as a reduction against the US$175 million advance payment.

Upon expiry of the 40 year term of the GPSA any balance remaining unpaid relating to the advance payment shall be refunded to Royal Gold. No interest shall be payable on the advance payments.

The repayment of the advance payments is currently secured by share pledges over the Group's common shares in a number of its wholly-owned subsidiaries together with security of specific intergroup transactions and balances. On June 3, 2015 the Group obtained the Concession Agreement Annex allowing for the Exploitation Concession for Ilovica 6 to be granted as security by way of assignment in favour to Royal Gold as well as to the Group's creditors. Royal Gold's first priority security interest will be subordinated to that of the permitted senior ranking debt finance under arrangements to be agreed with the senior financiers. Royal Gold's security interest falls away once its entire advance payment has been credited against gold deliveries.

Under the GPSA, the Group is permitted to raise up to US$215 million of senior ranking debt finance to fund mine construction and operations, as well as the ability to enter additional capital equipment leases and equipment financing customary for similar projects. On May 1, 2015 the Group executed a Mandate Letter and Term Sheet with Société Générale S.A. and UniCredit Bank AG and UniCredit Bank Austria AG to provide up to US$215 million of Senior Secured Project Finance, subject to due diligence and all necessary approvals. The Group also executed a Mandate Letter and Term Sheet with Caterpillar Financial to arrange an equipment financing facility for up to US$25 million, subject to due diligence and all necessary approvals.

On March 2, 2015 the Group entered into a First Amendment to the GPSA with Royal Gold and closed the initial stage of the transaction. The Group received the initial tranche of US$7.5 million in two equal instalments of US$3.75 million on March 2 and March 23, 2015.

On November 4, 2015 under the Second Amendment to the GPSA, the Group received part of the first anniversary payment of US$3.75 million.

All advance payments received under the GPSA are classified as current liabilities until all conditions precedent for the third tranche have been satisfied.

Under the provisions of GPSA, in case of its termination, advance payments need to be repaid in full within 60 days of received termination notice.

The following is a summary of the changes in the GPSA advance payments as at September 30, 2017 and 2016:

	2017	2016

The Group's related party is Trentside Projects Limited, a private company owned by one of the Group's current key management personnel. Since July 2015, Trentside Projects Limited has been providing project management services to the Ilovica-Shtuka Project.

The Group incurred the following fees and expenses in the normal course of operations in connection with Trentside Projects Limited. Expenses have been measured at the amount which is agreed between the parties.

(b) Key management personnel compensation

The remuneration of directors and other members of key management personnel during the nine months ended September 30, 2017 and 2016 was as follows:

		Nine months ended September 30,	
	Note	**2017**	2016

(i) Executive directors and some key management personnel receive pension contributions ranging from 5% to 10% of their salary to their individual pension plans.

(ii) Share-based payments are the cost of share options, RSUs and DPUs granted to directors and key management personnel.

(c) Deferred Phantom Unit Plan

In March 2013 Euromax introduced a DPU Plan for its directors and key management personnel. Under the terms of the plan the Company's non-executive directors elected to convert their outstanding unpaid directors' fees into DPUs in lieu of a cash payment. Since April 2013, non-executive directors have made semi-annual elections to receive DPUs in lieu of cash for their fees. In September 2017 all non-executive directors, except for one, elected to receive DPUs in lieu of cash until March 31, 2018.

All DPUs granted to non-executive directors vest immediately. However, for those DPUs granted to executive officers that contain a vesting condition relating to the Company's common share price performance compared to the Market Vectors Junior Gold Mines ETF ("GDXJ"), this is a market performance vesting condition so at grant date it is estimated that the Company's common share price performance should be at least consistent with the GDXJ's price performance.

All vested DPUs are revalued at the Company's reporting period end share price and only becomes payable in cash in the event that a director or key management person leaves the Group.

The total DPUs in issue at September 30, 2017 was 13,898,695 (September 30, 2016: 13,169,310) inclusive of DPUs granted to the Company's non-executive directors. Share-based payment liabilities of $4.656 million (December 31, 2016: $8.659 million) are recognised as current at September 30, 2017. The DPU recovery for the three and nine months ended September 30, 2017 was $1.440 million and $3.754 million (2016: DPU expense of $1.339 million and $3.321 million) respectively.
