Notes to the condensed consolidated interim financial statements - unaudited

(Expressed in Canadian dollars, except number of common shares and per share amounts)

1. Nature of operations

Euromax Resources Ltd. ("Euromax" or the "Company") was incorporated under the Business Corporation Act ("British Columbia") and established as a legal entity on May 1, 1990. The registered address of the Company is located at 400-725 Granville Street, Vancouver, British Columbia, Canada V7Y 1G5.

These condensed consolidated interim financial statements include the accounts of Euromax and of its wholly-owned subsidiaries (collectively, the "Group"). The Group operates with the objective of becoming the leading gold and base metal mining company in Europe. The Group operates in one sector in the mining industry, i.e. the exploration and development of mineral right interests.

Euromax's common shares are listed on the Toronto Stock Exchange (the "TSX") under the trading symbol "EOX", as well as on the OTC Pink Market under the trading symbol "EOXFF". Euromax's share options and warrants are not listed.

These condensed consolidated interim financial statements were authorised for issue by the Company's board of directors on May 10, 2021.

2. Basis of preparation and statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34 Interim Financial Reporting. These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2020, which were prepared in accordance with IFRS as issued by the IASB.

The Group has applied the same accounting policies and methods of computation in these condensed consolidated interim financial statements as it did in the audited consolidated financial statements for the year ended December 31, 2020.

3. Going concern

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

At March 31, 2021, the Group had net assets of \$2.7 million (December 31, 2020: \$3.9 million) and a net working capital deficiency of \$35.7 million (December 31, 2020: \$36.6 million), including cash of \$1.8 million (December 31, 2020: \$2.8 million). The Group's \$35.7 million working capital deficiency at March 31, 2021 largely results from:

- Convertible loans of \$21.4 million (at December 31, 2020: \$22.1 million) with European Bank for Reconstruction and Development ("EBRD") (the "EBRD convertible loan") and with CC llovitza ("CCI" a member of the CCC Group) (the "CCI convertible loan"), both mature on February 28, 2022 and therefore classified as current liabilities (see Note 9); and
- Gold purchase advance payments of \$14.2 million (December 31, 2020: \$14.4 million) received from Royal Gold, AG ("Royal Gold") (see Note 10) which are repayable within 60 days of receiving a termination notice to the Gold Purchase and Sale Agreement.

These two items are classified as current liabilities as at this time contractual repayment may be required within the next twelve months. Both convertible loans are convertible into the Company's common shares at the election of EBRD and CCI on or before their maturity (see Note 9 for more details). As at the date of these condensed consolidated interim financial statements no termination or repayment notice has been received from Royal Gold.

Notes to the condensed consolidated interim financial statements - unaudited (Expressed in Canadian dollars, except number of common shares and per share amounts)

3. Going concern (continued)

The Company's board of directors has reviewed the Group's forecasts for the period ended December 31, 2022, in which are included all committed costs for maintaining the Ilovica-Shtuka copper project (the "Ilovica-Shtuka Project") in the Republic of North Macedonia ("Macedonia" or the "Country"), and are prepared based on the following major assumptions:

- the convertible loans which have potential contractual cash outflows at February 28, 2022 of \$24
 million will either be converted into the Company's common shares or further extended to mature
 beyond the forecast period; and
- neither termination nor repayment notices will be received from Royal Gold for the period ended December 31, 2022.

Based on these forecasts, the directors have identified that further funding will be required to:

- cover the committed costs for maintaining the llovica-Shtuka Project from October 2021 and going
 forward, including covering the local legal costs for the ongoing administrative process related to the
 termination of the Exploitation Concession for Ilovica 6 ("Termination of Ilovica 6");
- cover any costs associated with international arbitration (should management pursue this) in respect
 of the Termination of Ilovica 6;
- repay the gold purchase advance payments, if termination or repayment notice is received from Royal Gold:
- repay both convertible loans, if neither are further extended in 2022 or converted into the Company's common shares; and
- ultimately construct and bring the Ilovica-Shtuka Project into commercial production.

The directors note that the level of funding required is dependent on both the outcome and duration of the legal matter as disclosed in Note 7 in respect of the Termination of Ilovica 6.

Given the above factors, the Group will need to raise additional funds by October 2021 either through equity (supported by existing shareholders or new shareholders) or by further debt. The directors also note that the current coronavirus (COVID-19) pandemic could have an impact upon the timing for resolving the administrative process related to the Termination of Ilovica 6 in the Country, and also impact on the ability of the Group to raise further funds as and when are required.

These events are outside of the Group's control, and as such, a material uncertainty exists which may cast significant doubt about the Group's continued ability to operate as a going concern and its ability to realise its assets and discharge its liabilities in the normal course of business.

4. Critical accounting judgements and key sources of estimation uncertainty

The preparation of these condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these judgements and estimates. In preparing these condensed consolidated interim financial statements, the significant judgements and estimates made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements for the year ended December 31, 2020.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

5. Loss per share

	2021	2020
	\$000s	\$000s
Net loss for the period after tax	(1,007)	(2,839)

Basic and diluted loss per share	(0.00)	(0.01)

Notes to the condensed consolidated interim financial statements - unaudited (Expressed in Canadian dollars, except number of common shares and per share amounts)

5. Loss per share (continued)

For the three months ended March 31, 2021 and 2020, because there would be further reduction in loss per share resulting from the assumption that share options, share purchase warrants and convertible loan are exercised or converted, all these instruments are considered as anti-dilutive and are ignored in the computation of loss per share. As there were no other instruments that may have a potential dilutive impact, the basic and diluted loss per share were the same for the three months ended March 31, 2021 and 2020.

6. Operating segments

The Group's principal business is the exploration and development of mineral right interests. The Group's board of directors (the Group's Chief Operating Decision Maker) has arranged the Group's operating segments by both type of business and by geographic region. No operating segments have been aggregated in arriving at the reportable segments of the Group.

The Group's reportable segments are as follows:

Reportable segments	Operations	Geografic location
Macedonia	exploration and development of mineral right interests	Republic of North Macedonia
Corporate	corporate operations	Canada and UK

The following is an analysis of the Group's loss before tax, assets and liabilities by operating segments and the Group's consolidated loss before tax.

7. Mineral right interests

Macedonia

On July 11, 2007 the Group acquired an option to earn a 100% interest in the Ilovica-Shtuka Project. After completing an agreed exploration programme and the vendor not exercising its back-in right in January 2012, the Group acquired a 100% interest in the Ilovica-Shtuka Project.

The Ilovica-Shtuka Project consists of two adjacent properties, Ilovica 6 and Ilovica 11. The Group was granted the Exploitation Concession for Ilovica 6 under the rules and regulations of the Minerals Law in Macedonia. The Ilovica 6 Exploitation Concession has an initial term of 30 years and is subject to a state royalty of 2% of the market value of metals contained in concentrate. The Ministry of Environment and Physical Planning in Macedonia (the "MoEPP") has formally approved the Environmental Impact Assessment Study (the "EIA") for Ilovica 6 under the Environmental Law in Macedonia.

On January 6, 2016 the Group announced the Feasibility Study (the "FS") for the Ilovica-Shtuka Project, prepared in compliance with National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101").

The Exploitation Concession on Ilovica 11 was granted on January 13, 2016 under the rules and regulations of the Minerals Law in Macedonia. This Exploitation Concession on Ilovica 11 has the same conditions as those of Ilovica 6, i.e. an initial term of 30 years and a state royalty of 2% of the market value of metals contained in concentrate. During 2017, a Strategic Environmental Impact Assessment was approved by the MoEPP (required for urbanisation process of the mine footprint), and a commission within the MoEPP issued a Compliance Report for the EIA on Ilovica 11, and recommended a formal approval to be granted by the MoEPP.

Notes to the condensed consolidated interim financial statements - unaudited (Expressed in Canadian dollars, except number of common shares and per share amounts)

7. Mineral right interests (continued)

Macedonia (continued)

Additionally, during 2017 the Environmental and Social Impact Assessment Study (the "ESIA") was completed under international standards, which could facilitate the financing of the Ilovica-Shtuka Project's construction as well as meets the requirements of various project stakeholders.

During 2017 and 2018, the MoE positively responded on the request for the merger of the Group's two exploitation concessions (the "Merger"), however the final approval is still waiting from the Government of the Republic of North Macedonia. The approval of the Merger represents a significant trigger for further development of the llovica-Shtuka Project.

On July 12, 2019 Euromax announced that the Minister of Economy had unilaterally taken the decision to reject the application for an exploitation permit for the llovica 6 concession and this was upheld by the Government's Second Instance Commission who are responsible for ratifying certain government institution decisions. This was appealed by the Group, and on October 14, 2019 a lawsuit was submitted to the Administrative Court in Macedonia.

On December 16, 2019 based on the Ministry's rejection of the permit application, the process for termination of Ilovica 6 was completed by the Government of the Republic of North Macedonia. On January 8, 2020 Euromax Resources filed a second lawsuit to the Administrative Court challenging this termination which is now on appeal in front of the Higher Administrative Court in Macedonia. The case is currently on going.

The Administrative Court on March 31, 2020 gave a judgment fully accepting the first lawsuit submitted by the Group. On November 21, 2020, following the rejection of all appeals, the Higher Administrative Court in Macedonia upheld and made final the initial judgment in the Group's favour. However, on January 27, 2021, the Second Instance Commission ignored the judgement of the Court and repeated the ratification of the Minister of Economy's decision. The Group filed a third lawsuit on February 23, 2021 against this repeated decision.

As at the date of these condensed consolidated financial statements, the Exploitation Concession for Ilovica 11 is considered as valid, whilst the administrative process for Termination of Ilovica 6 is in dispute and in a legal process in the Administrative Court in the Country. There are further steps for recovering the investment and potential damages from the Ilovica-Shtuka Project if the administrative courts in the Country confirm the Termination of Ilovica 6 as final, such as an option of initiating an international arbitration under the arbitration rules of the International Centre of the Settlement of Investment Disputes ("ICSID") in Washington D.C., USA. This is subject to raising additional funds by the Group either through equity (supported by existing shareholders or new shareholders) or by further debt as outlined in Note 3.

Based on independent legal advice that demonstrate that the Group is legally compliant with respect to the dispute, as at March 31, 2021 the Group is of the view that it has a strong legal position, and accordingly has a reasonable expectation that the administrative process related to the Termination of Ilovica 6 will be resolved in the Group's favour in line with the local Macedonian laws that would enable further progress towards the development of the Ilovica-Shtuka Project. Otherwise, the negative outcome of the administrative process related to Termination of Ilovica 6 would lead to losing the legal rights over Ilovica 6.

The timing of the completion of this administrative process related to the Termination of Ilovica 6 could be influenced by and further prolonged due to the current coronavirus (COVID-19) pandemic and related uncertainties over when it will end.

Assuming a positive resolution of this administrative process related to the Termination of Ilovica 6 that would result in the continued development of the Ilovica-Shtuka Project, and as explained above, the Group believes that as at March 31, 2021 there is no need for impairment of the carrying amount of the mineral right interest for the Ilovica-Shtuka Project as presented below. However, the Group also acknowledges that there is legal uncertainty and ambiguity as a result of the ongoing court cases which could result in the legal rights over Ilovica 6 being lost.

Notes to the condensed consolidated interim financial statements - unaudited (Expressed in Canadian dollars, except number of common shares and per share amounts)

7. Mineral right interests (continued)

Macedonia (continued)

A summary of changes to the Group's mineral right interests in the three months ended March 31, 2021 and 2020 is set out below.

Balance on March 31	331,929,522	78,544	331,929,522	78,544

During the three months ended March 31, 2021 and 2020, no new common shares were issued, and accordingly no share options and no share purchase warrants were exercised.

During the three months ended March 31, 2020 \$0.104 million were transferred from equity reserve to accumulated losses which represents a fair value of 950,000 share options that expired during the three months ended March 31, 2020.

At March 31, 2021, the Company had 11,946,670 share options outstanding (March 31, 2020: 6,425,000) with exercise prices ranging from \$0.03 to \$0.43 per share and a weighted average exercise price of \$0.11.

During the three months ended March 31, 2021, 273,504 RSUs were granted to a senior officer of the Group.

The Company had 164,649,677 share purchase warrants (March 31, 2020: 206,983,010) with exercise price of \$0.15 per share and 2,491,155 RSUs (March 31, 2020: 3,977,717) outstanding at March 31, 2021.

EBRD convertible loan

On May 24, 2016 the Company closed the EBRD convertible loan with EBRD and received proceeds of US\$5 million (\$6.306 million) (the "Principal Amount"), amended on April 12, 2018 (the "2018 Amendments of the EBRD convertible loan"), amended in March 2019 (the "2019 Amendments of the EBRD convertible loan") and amended in February 2021 (the "2021 Amendments of the EBRD convertible loan").

The EBRD convertible loan matures on February 28, 2022, extended from February 28, 2021 as per the 2021 Amendments of the EBRD convertible loan, following the previous extension from May 10, 2019 as per the 2019 Amendments of the EBRD convertible loan.

Upon maturity, the Company will be required to pay or convert:

- the Principal Amount,
- an amount of US\$1.420 million (\$1.791 million) (the "Redemption Amount"),
- a finance delay fee of US\$0.150 million (\$0.189 million) (the "Fee"),
- finance delay interest (the "Interest") accrued from January 1, 2017 until April 30, 2018 on the Principal Amount at the rate of 3 months LIBOR plus 7% per annum, compounded quarterly, and
- finance interest (the "Interest on Extension") accrued from May 1, 2018 to its maturity on collectively the Principle Amount, the Redemption Amount, the Fee and the Interest at April 30, 2018 at a rate of 20% per annum applied from May 1, 2018 to March 31, 2019 and 7% per annum from April 1, 2019 to its maturity, compounded annually.

The EBRD convertible loan is convertible into the Company's common shares, in whole or in part at the election of EBRD, at strike price of \$0.15 per common share for conversion of all the Principal Amount, the Redemption Amount, the Fee, the Interest, and the Interest on Extension.

CCI convertible loan

On May 20, 2016 the Company closed a convertible loan with CCI and received proceeds of \$5.2 million, amended on April 12, 2018 (the "2018 Amendments of the CCI convertible loan"), amended in March 2019 (the "2019 Amendments of the CCI convertible loan") and amended in February 2021 (the "2021 Amendments of the CCI convertible loan").

The CCI convertible loan matures on February 28, 2022, extended from February 28, 2021 as per the 2021 Amendments of the CCI convertible loan, following the extension from May 10, 2019 as per the 2019 Amendments of the CCI convertible loan.

The CCI convertible loan incurred a fixed interest rate of 20% per annum, compounded annually (changed from interest rate of 9% per annum, compounded daily), applied retrospectively from May 20, 2016 to March 31, 2019, repayable at maturity, while from April 1, 2019 until its maturity incurs fixed interest rate of 7% per annum, compounded annually.

At maturity, CCI can elect to receive cash repayment or convert the outstanding loan balance into the Company's common shares at a conversion price of \$0.15 per common share.

Fair value adjustment	(21)	(7)
Foreign exchange movements	(163)	948
Carrying amount at March 31	12,279	12,837

The EBRD convertible loan is designated as fair value through profit or loss ("FVTPL"), whereby all attributable transaction costs, together with any accrued interest, foreign exchange movements and fair value adjustments are recognised in profit or loss.

During the three months ended March 31, 2021 transaction costs of \$0.063 million were incurred for closing the 2021 Amendments of the EBRD convertible loan.

As per provisions of IFRS 9 *Financial Instruments*, the amount of change in the fair value of financial liability designated as FVTPL attributable to change in the credit risk of that liability shall be presented in other comprehensive income or loss, while the remaining amount of change in the fair value of the liability shall be presented in profit or loss. Based on the management estimate, the effect of fair value movement of the EBRD convertible loan resulting from changes in the credit risks of the EBRD convertible loan do not have material effect on the Group's condensed consolidated interim financial statements, and therefore the whole effect from movement in the fair value of the EBRD convertible loan is presented in profit or loss.

The fair value of the EBRD convertible loan is calculated via an internally prepared model that separately values the loan amount on a discounted cash flow basis and the conversion option using a Black-Scholes option pricing model. The market observable information assumptions used, of which the most significant is the Company's common share price, have been applied consistently to management's most likely future financing plans.

A probability weighting has been applied to each scenario, developed based on future financing plans, by using management's best estimates of the likelihood of each scenario occurring. This probability weighting was categorised as a level 3 non-market observable assumption under IFRS 13 *Fair Value Measurement* and hence results in the EBRD convertible loan valuation being a level 3 valuation.

The fair value of the EBRD convertible loan at March 31, 2021 was assessed at \$12.279 million (US\$9.736 million) (March 31, 2020: \$12.837 million or US\$9.097 million), representing a decrease of the liability as disclosed at December 31, 2020, and therefore resulted in fair value gain of \$0.021 million recognised for the three months ended March 31, 2021 (\$0.007 million for the three months ended March 31, 2020).

The CCI convertible loan is a compound financial instrument, whereby a liability component and an equity component were determined at initial recognition. The liability component was measured by fair valuing the convertible loan using a relevant market interest rate that would apply to an equivalent loan that does not contain an equity conversion option. The remaining amount was recognised as equity element.

Transaction costs incurred for closing of the CCI convertible loan during 2016, were allocated on a proportional basis to the liability component and equity element. Those transaction costs, incurred in 2016 and allocated to the liability component, were fully amortised at April 30, 2018.

(b) Recognition and measurement of convertible loans (continued)

CCI convertible loan (continued)

The significant modification of the CCI convertible loan's conditions as per the 2021 Amendments of the CCI convertible loan resulted in recognition of newly recognised financial liability in 2021, and derecognition of both the existing financial liability and related equity component of \$1.733 million, whereby the equity component was transferred to Accumulated losses. Therefore, a new financial liability has been recognised at \$9.001 million, while the remaining amount of that compound financial instrument of \$1.169 million has been recognised as an equity component.

During the three months ended March 31, 2021 transaction costs of \$0.063 million were incurred for closing the 2021 Amendments of the CCI convertible loan, which were allocated on a proportional basis to the liability component and equity element. Transaction costs allocated to the liability component will be fully amortised at February 28, 2022.

Subsequent to initial recognition, the liability component is measured at amortised cost by using the effective interest method.

10. Gold purchase advance payments

On October 20, 2014 the Group entered into a Gold Purchase and Sale Agreement ("GPSA") with Royal Gold pursuant to which the Group via its wholly-owned subsidiaries agreed to sell an equivalent of 25% of future gold production from the Ilovica-Shtuka Project to Royal Gold to a maximum of 525,000 ounces and then 12.5% gold produced thereafter. In consideration, it was agreed that Royal Gold pay US\$175 million as an advance payment on the purchase price of the Ilovica-Shtuka Project's future gold production.

However, during 2015, under the initial tranche and part of the first anniversary payment the Group received US\$11.25 million, as part of that GPSA. All these advance payments received under the GPSA are classified as current liabilities since all conditions precedent for the third tranche were not satisfied in the agreed timetable as per GPSA.

The repayment of the advance payments is currently secured by share pledges over the Group's common shares in a number of its wholly-owned subsidiaries together with security of specific intergroup transactions and balances. On June 3, 2015 the Group obtained the Concession Agreement Annex allowing for the Exploitation Concession for Ilovica 6 to be granted as security by way of assignment in favour to Royal Gold as well as to the Group's creditors. Royal Gold's first priority security interest will be subordinated to that of the permitted senior ranking debt finance under arrangements to be agreed with the senior financiers. Royal Gold's security interest falls away once its entire advance payment has been repaid back.

Under the provisions of GPSA, in case of its termination, advance payments need to be repaid in full within 60 days of received termination notice. As at the date of these condensed consolidated interim financial statements, no termination or repayment notice has been received from Royal Gold, nor does the Group expect to receive such notice until funds for repayment of that advance payment are secured by the Group.

The following is a summary of the changes in the GPSA advance payments as at March 31, 2021 and 2020:

	2021	2020

11. Related party transactions

Details of the transactions between the Group and other related parties are disclosed below.

Transactions with key management personnel

(a) Key management personnel transactions

The Group has the following related parties:

- Wheatley Project Services private company owned by one of the Group's current key management personnel, for performing of project management services to the Ilovica-Shtuka Project; and
- Coast Invest Ltd private company owned by one of the Group's directors, as additional support for the Group's Macedonian affairs, particularly engaged in the permitting process and for the development of the Ilovica-Shtuka Project.

The Group incurred the following fees and expenses in the normal course of operations in connection with related parties. Expenses have been measured at the amount which is agreed between the parties.

	Three months ended March 31,	
	2021	2020
	\$000s	\$000s
Project management fees	2	19
Fees for Macedonian affairs and for support of the		
permiting process of the Ilovica-Shtuka Project	53	53
	55	72

At March 31, 2021, the Group owed Coast Invest Ltd \$0.018 million (December 31, 2020: \$0.018 million) for the services provided in March 2021.

(b) Key management personnel compensation

The remuneration of directors and other members of key management personnel during the three months ended March 31, 2021 and 2020 was as follows:

	Three months ended March 31,		
	Note	2021	2020
		\$000s	\$000s
Short-term employee benefits		155	233
Post-employment benefits	(i)	13	13
Share-based payments recovery	(ii)	(957)	(110)
		(789)	136

- (i) Some executive directors and some key management personnel receive pension contributions ranging from 5% to 10% of their salary to their individual pension plans.
- (ii) Share-based payments recovery is the income from share options, RSUs and DPUs granted to directors and key management personnel.

(c) Deferred Phantom Unit Plan ("DPU Plan)"

In March 2013 Euromax introduced a DPU Plan for its directors and key management personnel. Under the terms of the plan the Company's directors elected to convert their outstanding unpaid directors' fees into DPUs in lieu of a cash payment. Since 2013, directors who have elected to convert their fees into DPUs, have been making a semi-annual elections for issuing of DPUs in lieu of cash.

All DPUs granted to directors vest immediately.

However, those DPUs granted to executive officers, that contain a vesting condition relating to the Company's common share price performance compared to the Market Vectors Junior Gold Mines ETF ("GDXJ"), have a market performance vesting condition, so at grant date it is estimated that the Company's common share price performance should be at least consistent with the GDXJ's price performance. No additional DPUs were granted for the three months ended March 31, 2021 and 2020 under this set benchmark.

11. Related party transactions (continued)

(c) Deferred Phantom Unit Plan ("DPU Plan)" (continued)

All vested DPUs are revalued at the Company's reporting period end share price and only becomes payable in cash in the event that a director or key management person leaves the Group.

The total DPUs in issue at March 31, 2021 was 21,900,326 (March 31, 2020: 16,519,795). Share-based payment liabilities of \$1.533 million (December 31, 2020: \$2.49 million) are recognised as current at March 31, 2021. The DPU recovery for the three months ended March 31, 2021 was \$0.958 million (March 31, 2020: DPU expense of \$0.111 million).

12. Contingencies and commitments

Apart of above presented contractual obligations, in other notes of these condensed consolidated interim financial statements, the Group had no further contingencies or commitments as at March 31, 2021.

13. Subsequent events

No reportable events have occurred subsequent to March 31, 2021.
